

DIGITAL THERMOMETERS - HAND HELD THERMOMETERS

TECHNICAL DATA, PRODUCT VARIANTS AND ACCESSORIES

The following table lists the various characteristics of hand held thermometers, including the measuring range, accuracy, variants, and the corresponding data.

FEATURE	VARIANTS
Measuring range	-196 °C to +1800 °C
Resolution	Up to 0.001 °C
Accuracy	Up to ±0,015 °C
Variants	Infrared handheld measuring devices Sensors integrated: handheld measuring device type 12200 Sensors variable: handheld measuring devices for thermocouples handheld measuring devices for thermocouples incl. data logging function data logging function handheld measuring devices for resistance thermometers handheld measuring devices for resistance thermometers incl. data logging function data logging function
Accessories	mains adapter, USB data cable, memory card, evaluation software, transport case, protective cover Evaluation software, transport case, protective cover
