

HYDROMETERS FOR SPECIFIC GRAVITY

TECHNICAL DATA, PRODUCT VARIANTS AND ACCESSORIES

The following table lists the various characteristics of hydrometers for specific gravity , including the measuring range, accuracy, variants, and the corresponding

FEATURE	VARIANTS
Measuring range	0.650 to 2000 sp/gr
Resolution	up to 0.0005 sp/gr
Accuracy	±0.0005 sp/gr
Reference temperature	60/60 °F
Types	Range finders Hydrometers acc. to ASTM E100-19 Hydrometers for heavy liquids
Accessories	Cylindrical stands made of glass
